BAMBOT HANSON NGONGMUN

React Native Engineer · Mobile & Full-Stack TypeScript

Douala, Cameroon (WAT, UTC+1) · Available for remote work
diamondhanson6@gmail.com · +237 670 151 973 · github.com/Diamondhanson · linkedin.com/in/bambot-hanson-ngongmun · seamflowtech.com

SUMMARY

React Native engineer with four years building and shipping cross-platform mobile apps in TypeScript. Currently lead front-end on a fintech mobile app at Victoi Inc, and founder and lead engineer of SeamFlow, a production SaaS for tailors whose Expo app is live on Google Play, backed by a NestJS and PostgreSQL API across five apps in a single pnpm/Turborepo monorepo. Comfortable owning a feature end to end, from a database migration to a signed store build. Fluent in English and French.

TECHNICAL SKILLS

Mobile: React Native, Expo (SDK 55, EAS Build, OTA updates), Expo Router, React Navigation, Reanimated, offline-first sync, push notifications, secure storage, iOS + Android release

Front-end: JavaScript (ES2023), TypeScript, React, Next.js, Tailwind CSS, TanStack Query, design systems, light/dark theming, accessibility, reduced-motion and skeleton loading states, i18n and RTL

Back-end: NestJS, Node.js, PostgreSQL, Supabase (Auth, row-level security, Storage), Zod contract schemas, REST APIs, webhooks, rate limiting, scheduled jobs

Platform & tooling: pnpm workspaces, Turborepo, GitHub Actions CI, Vitest, Jest, custom ESLint rules, Sentry, Vercel, Render, Google Play Console

Integrations: Subscription billing, mobile-money and card payment providers, provider webhooks, transactional email (Resend), magic-link authentication

EXPERIENCE

Founder & Lead Engineer

Jan 2025 - Present

SeamFlow (own product), remote · seamflowtech.com · github.com/Diamondhanson/SeamFlow

- Designed and built a production workflow platform for tailors covering the client book, body measurements, orders, fittings, design catalogue, invoicing and subscriptions, built as five apps and six shared packages in one pnpm/Turborepo monorepo, roughly 138,000 lines of TypeScript across 884 files.
- Shipped the Expo / React Native tailor app to Google Play across 86 screens, offline-first: TanStack Query persisted to AsyncStorage so tailors keep working with no signal and sync on reconnect.
- Built the NestJS and PostgreSQL back end: 56 migrations, Supabase auth with row-level security, Zod schemas published as a typed contract package consumed by every client, Sentry monitoring and request rate limiting.
- Integrated subscription billing end to end: mobile money in XAF for Cameroon and card payments in USD elsewhere, with provider webhooks, a magic-link web checkout and transactional email, proven against provider sandboxes.
- Internationalized the product behind a translation layer enforced by a custom ESLint guard that fails CI on any hardcoded string. English and French are complete, with four more scaffolded including right-to-left Arabic.
- Built the Next.js marketing site, the client-facing web (public tailor lookbooks, magic-link order views) and an internal admin dashboard with an audited action trail; deployed on Vercel and Render with GitHub Actions CI and nightly database backups.

Lead Front-End / Mobile Developer

Jun 2023 - Present

Victoi Inc, Douala, Cameroon

- Lead front-end development of a fintech mobile application, owning the user interface across iOS and Android.
- Rebuilt core money-movement journeys, consolidating a multi-step withdrawal and account-linking flow into a single form and reducing drop-off.
- Run UI/UX testing and performance optimization, and keep behaviour and visual parity between the two platforms.

Freelance Web & Mobile Developer

2022 - Present

Remote, various clients

- Delivered a dozen client websites and web applications in TypeScript and React, including e-commerce storefronts, business and institutional sites and a hospital management system, handling requirements, build and deployment.

EDUCATION & TRAINING

Professional Full-Stack Software Engineering, Maxwell Technologies, Douala · Jun to Nov 2022

Bachelor's Degree, Business Management, Institut Universitaire du Golfe de Guinée (IUG), Douala · 2019 - 2020

Higher National Diploma (HND), Business Management, Institut Universitaire du Golfe de Guinée, Douala · 2017 - 2019

LANGUAGES

English (fluent) · French (fluent)
